Word by the Chairman

Since the inception of White Horse Ceramic Industries in Malaysia in 1991, we have been moving forward aggressively to capitalise on growth opportunities, improve our operational efficiency, expand our global presence, and diversify our tile collections to suit evolving tile trends.

Today, White Horse is one of the leading tile manufacturers in the Asia Pacific region. Countries in the region are stepping up controls to mitigate the import of ceramic tiles by enforcing product or systems certifications. The Group has undertaken various measures to ensure that we can export our products to these countries. We remain positive on our growth potential, particularly in ASEAN, China and India.

In order to improve our presence and appearance on the market network in Malaysia, we plan to open new Concept Galleries nationwide in selected areas.

In addition, we are making it a priority to maintain and strengthen our relationship with the Real Estate and Housing Developers' Association Malaysia (REHDA), Malaysian Institute of Architects (PAM) and Malaysia Institute of Interior Designer (MIID) besides working towards enhancing our relationship network with our sales dealers across local and international markets in the region.

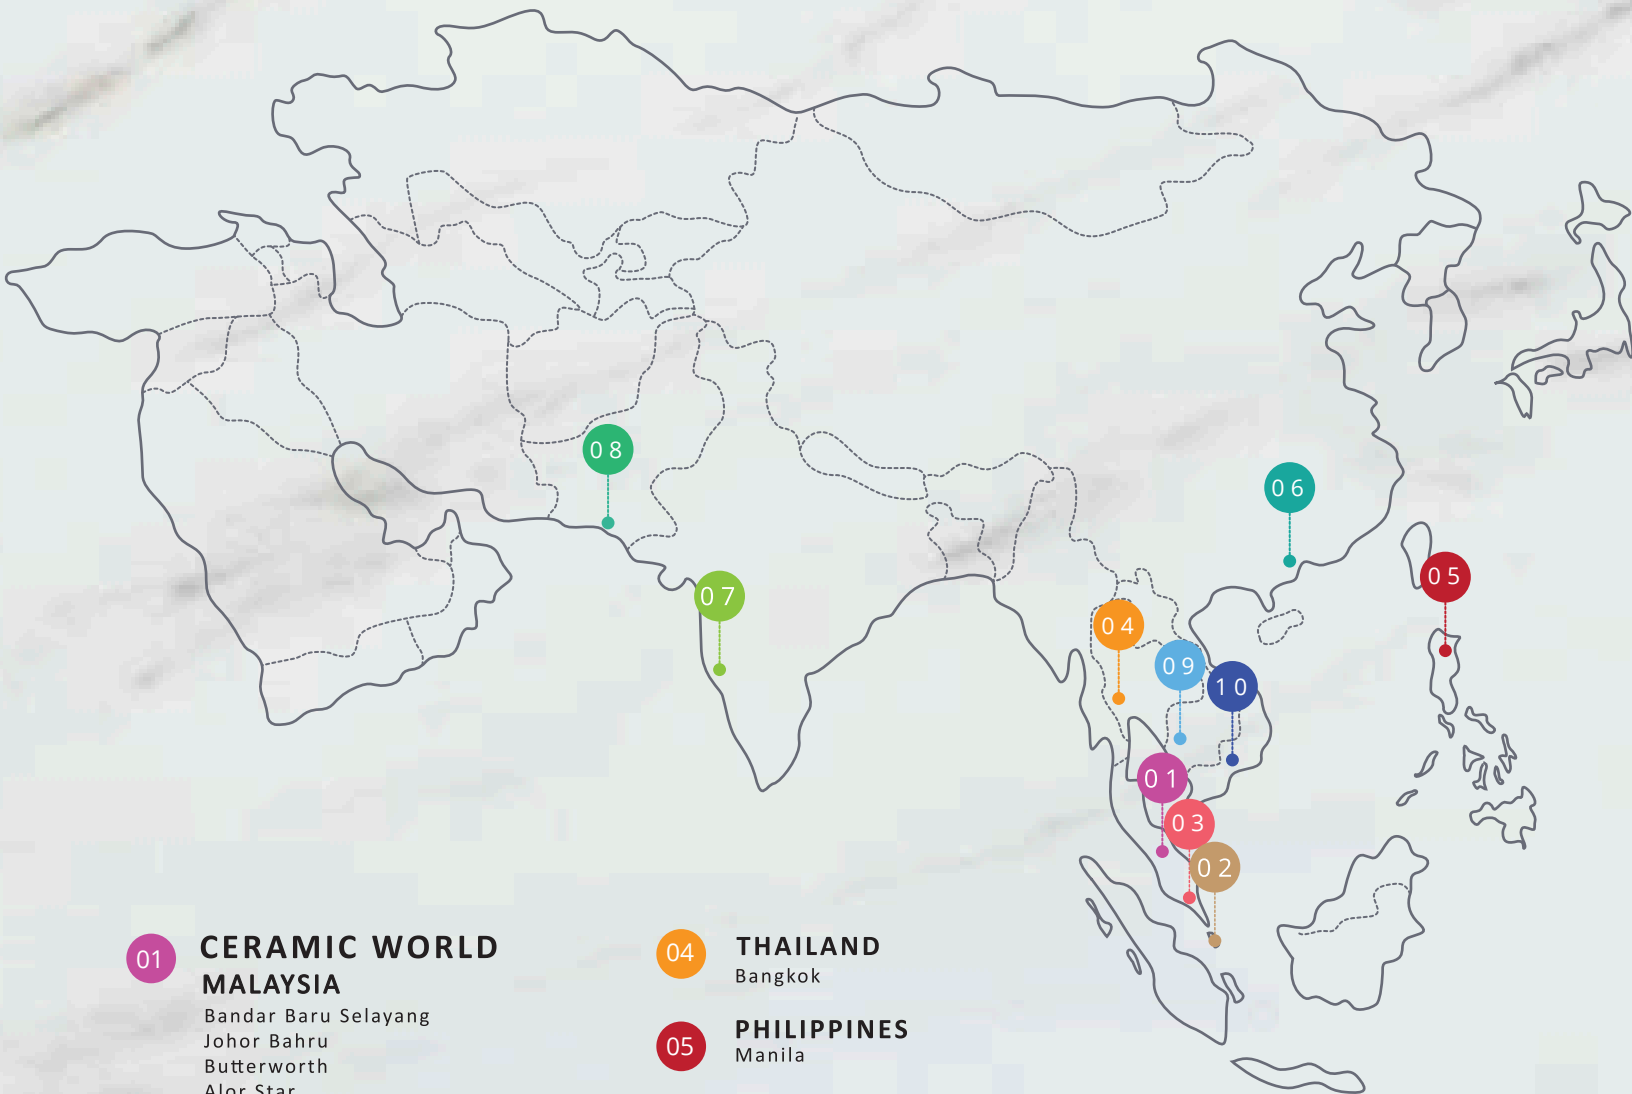

At White Horse, our mission is to exceed customer expectations for our products, value and service. We aim to build and maintain customer relationships. The world is becoming more aware of the latest tile trends and designs. White Horse will be the most sought-after tiles brand that delivers ultimate quality and timeless design.
